Work Experience

- **BVZZ Design** College Station, Texas
Freelance Web Design *Nov. 2017 - Current*
 - Integrated React and Django Rest Framework
 - Deployed servers with nginx, gunicorn, and systemd
 - Created E-mail server with postfix and dovecot to interact with customers and used Rainloop to interface the mail server with coworkers
 - Created online presence for growing and established businesses
- **Cook Financial Group** College Station, Texas
Marketing and Web Development *Jan. 2017 - Nov. 2017*
 - Created SEC compliant advertisement campaigns
 - Automated marketing E-mails and backup processes using Perl and Python
 - Created SEC compliant websites by interfacing with required platforms by Summit Brokerage, and overriding CSS rules in order to display our custom content on sites rather than pre built interfaces through the rich text editor
- **Atami** College Station, Texas
Waiter *Feb. 2016 - Dec. 2016*
 - Created great customer experience by hosting birthday parties, weddings, celebrations
 - Up sold alcoholic and food products
